This brochure provides information about the qualifications and business practices of Clear Creek Financial Management, LLC. If you have any questions about the contents of this brochure, please contact us by telephone at (360) 308-8239. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any State Securities Authority.

Additional information about Clear Creek Financial Management, LLC (CRD#170602) is also available on the SEC's website at www.adviserinfo.sec.gov.

Please note that the use of the term "registered investment adviser" and description of Clear Creek Financial Management, LLC and/or our associates as "registered" does not imply a certain level of skill or training. You are encouraged to review this Brochure and Brochure Supplements for our firm's associates who advise you for more information on the qualifications of our firm and our employees.

Item 2: Material Changes

Clear Creek Financial Management, LLC is required to make clients aware of information that has changed since the last annual update to the Firm Brochure (“Brochure”) and that may be important to them. Clients can then determine whether to review the brochure in its entirety or to contact us with questions about the changes.

Since the last annual amendment filed on 03/27/2024, we have the following material change(s) to report about our firm:

- We have updated the fee schedule for our Helios Quantitative Research service offered to other investment advisers. Our firm charges an hourly fee, flat fee, or fee based on the percentage of assets under management for this service. The fee-paying arrangements will be determined on a case-by-case basis and will be detailed in the signed agreement. The maximum hourly fee will not exceed \$1,000. The monthly fee is structured as follows: Base Fee + 1 Financial Advisor \$3,500 to \$4,000 and \$500 per additional financial advisor. Fees based on a percentage of assets under management for this service will not exceed 0.20%. Please see Item 5 for additional information.
- We charge on an hourly or flat fee basis for Financial Planning and Consulting services. The total estimated fee, as well as the ultimate fee charged, is based on the scope and complexity of our engagement with the Financial Planning and Consulting client. We have increased our maximum flat fee for our Financial Planning and Consulting service to \$100,000. The specific fee arrangement will be detailed in the signed Financial Planning and Consulting agreement. Please see Item 5 for additional information.
- Our firm has updated its ownership structure to include Jason Kelley as a 1% owner.

Item 4: Advisory Business

We are dedicated to providing individuals and other types of clients with a wide array of investment advisory services. We specialize in the following types of services: Asset Management, Financial Planning & Consulting, Pension Consulting, Helios Quantitative Research, and Newsletters. Our firm is a limited liability company formed in the State of Washington. Our firm has been in business as an investment adviser since April 2014 and is owned by Benjamin Warren, Brian Deely, and Joe Gates.

Types of Advisory Services Offered

Asset Management:

We emphasize continuous and regular account supervision. As part of our asset management service, we generally create a portfolio, consisting of individual stocks or bonds, exchange traded funds (“ETFs”), options, mutual funds and other public and private securities or investments. The client’s individual investment strategy is tailored to their specific needs and may include some or all of the previously mentioned securities. Each portfolio will be initially designed to meet a particular investment goal, which we determine to be suitable to the client’s circumstances. Once the appropriate portfolio has been determined, we review the portfolio at least quarterly and if necessary, rebalance the portfolio based upon the client’s individual needs, stated goals and objectives. Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio.

Financial Planning & Consulting:

We provide a variety of financial planning and consulting services to individuals, families and other clients regarding the management of their financial resources based upon an analysis of the client’s current situation, goals, and objectives. Generally, such financial planning services will involve preparing a financial plan or rendering a financial consultation for clients based on the client’s financial goals and objectives. This planning or consulting may encompass one or more of the following areas: Investment Planning, Retirement Planning, Estate Planning, Charitable Planning, Education Planning, Corporate and Personal Tax Planning, Cost Segregation Study, Corporate Structure, Real Estate Analysis, Mortgage/Debt Analysis, Insurance Analysis, Lines of Credit Evaluation, Business and Personal Financial Planning.

Our written financial plans or financial consultations rendered to clients usually include general recommendations for a course of activity or specific actions to be taken by the clients. For example, recommendations may be made that the clients begin or revise investment programs, create or revise wills or trusts, obtain or revise insurance coverage, commence or alter retirement savings, or establish education or charitable giving programs. It should also be noted that we refer clients to an accountant, attorney or other specialist, as necessary for non-advisory related services. For written financial planning engagements, we provide our clients with a written summary of their financial situation, observations, and recommendations. For financial consulting engagements, we usually do not provide our clients with a written summary of our observations and recommendations as the process is less formal than our planning service. Plans or consultations are typically completed within six (6) months of the client signing a contract with us, assuming that all the information and documents we request from the client are provided to us promptly. Implementation of the recommendations will be at the discretion of the client.

Pension Consulting:

We provide pension consulting services to employer plan sponsors on a one-time or ongoing basis. Generally, such pension consulting services consist of assisting employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. As the needs of the plan sponsor dictate, areas of advising could include: investment options, plan structure and participant education.

All pension consulting services shall be in compliance with the applicable state law(s) regulating pension consulting services. This applies to client accounts that are pension or other employee benefit plans ("Plan") governed by the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). If the client accounts are part of a Plan, and we accept appointments to provide our services to such accounts, we acknowledge that we are a fiduciary within the meaning of Section 3(21) of ERISA (but only with respect to the provision of services described in section 1 of the Pension Consulting Agreement).

Helios Quantitative Research:

Helios Quantitative Research provides ongoing consulting services for their algorithm-based approach to investment modeling to other investment advisers. Consulting services may include the aid in implementation of investment models and analysis of portfolios or specific securities. Specific investments may be based on risk mitigation, diversification, time horizon, economic cycle and tax efficiency needs. Helios Quantitative Research performs ongoing research at the asset class level and may provide specific recommendation for portfolios and individual securities.

Referrals to Third Party Money Managers:

Our firm utilizes the services of third party money managers for the management of client accounts. Investment advice and trading of securities will only be offered by or through the chosen third party money manager. Our firm will not offer advice on any specific securities or other investments in connection with this service. Prior to referring clients, our firm will provide initial due diligence on third party money managers and ongoing reviews of their management of client accounts. In order to assist in the selection of a third party money manager, our firm will gather client information pertaining to financial situation, investment objectives, and reasonable restrictions to be imposed upon the management of the account.

Our firm will periodically review third party money manager reports provided to the client at least annually. Our firm will contact clients from time to time in order to review their financial situation and objectives; communicate information to third party money managers as warranted; and, assist the client in understanding and evaluating the services provided by the third party money manager. Clients will be expected to notify our firm of any changes in their financial situation, investment objectives, or account restrictions that could affect their financial standing.

Clear Creek Financial Management Newsletter:

Our firm provides an industry educational newsletter free of charge by sign up through our website www.clearcreekfm.com. The newsletter covers basic financial information, economic and market updates. We do not provide investment advice or recommendations through this service.

Tailoring of Advisory Services

We offer individualized investment advice to clients utilizing our Asset Management service. Additionally, we offer general investment advice to clients utilizing our Financial Planning & Consulting, Helios Quantitative Research, Pension Consulting, and Newsletter services.

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account. Restrictions would be limited to our Asset Management service. We do not manage assets through our other services.

Participation in Wrap Fee Programs

Our firm does not offer or sponsor a wrap fee program for new clients. We may still offer wrap services to existing clients on a legacy basis.

Regulatory Assets Under Management

Our firm managed \$1,437,788,104 on a discretionary basis and \$36,641,818 on a non-discretionary basis for a total of \$1,474,429,922 as of December 31st, 2024.

Item 5: Fees & Compensation

Compensation for our Advisory Services

Asset Management:

The maximum annual fee charged for this service will not exceed 1.50%. Fees to be assessed will be outlined in the advisory agreement to be signed by the Client. Annualized fees are billed on a pro rata basis monthly in arrears based on the average daily balance of your account(s) during the previous month or quarterly in advance based on the value of the account(s) on the last day of the previous quarter. In rare cases, our firm may charge a flat fixed dollar amount on an annual, quarterly, or monthly basis rather than an advisory fee based on a percentage of assets under management. The specific billing arrangement will be specified in the signed agreement. Adjustments are made for deposits and withdrawals during the quarter for clients billed in advance. Our firm bills on cash and cash equivalents unless indicated otherwise in writing. In rare cases, our firm will agree to directly invoice. Fees are negotiable and will be deducted from client account(s). As part of this process, clients understand the following:

- a) The client's independent custodian sends statements at least quarterly showing the market values for each security included in the assets and all account disbursements, including the amount of the advisory fees paid to our firm.
- b) Clients will provide authorization permitting our firm to be directly paid by these terms. Our firm will send an invoice directly to the custodian.
- c) If our firm sends a copy of our invoice to the client, our invoice will include a disclosure urging the client to compare the information provided in our statement with those from the qualified custodian.

In addition, our firm reserves the right to charge a monthly fee of up to \$10, which is in addition to our firm's advisory fee, to cover custodial expenses. The specific fee will be disclosed in the client's signed advisory agreement.

Financial Planning & Consulting:

We charge on an hourly or flat fee basis for Financial Planning and Consulting services. The total estimated fee, as well as the ultimate fee that we charge you, is based on the scope and complexity of our engagement with you. Our maximum hourly fee is \$350. Flat fees generally range from \$250 to \$100,000. Our firm will negotiate with the client on whether to charge on an hourly or flat fee basis.

Clients who are charged at the lower end of the flat fee scale are given basic financial planning and consulting services for client investable assets according to their unique financial objectives. Clients who are charged at the higher end of the flat fee scale can expect a comprehensive detailed written report of investment recommendations to suit the Client's various financial goals that address a wide spectrum of financial topics which may include tax issues, legacy planning, college planning, insurance, and other individual financial needs.

Helios Quantitative Research:

We charge an hourly fee, flat fee, or fee based on the percentage of assets under management for Helios Quantitative Research services offered to other investment advisers. The total estimated fee, as well as the ultimate fee charged, is based on the scope and complexity of our engagement with the client. The fee-paying arrangements will be determined on a case-by-case basis and will be detailed in the signed agreement.

Hourly Fee

The maximum hourly fee to be charged for Helios Quantitative Research services will not exceed \$1,000.

Flat Fee

Our flat fees for Helios Quantitative Research services are charged monthly based on the investment adviser's number of locations and their number of registered financial advisors at the time of the signing of our service agreement. The monthly flat fee is structured as follows:

Base fee + 1 Financial Advisor: \$3,500 to \$4,00 (depending on service level)
Financial Advisors: \$500 per additional financial advisor

Special pricing offers outside of this range are at the sole discretion of our firm.

Fee Based on Percentage of Assets Under Management

Fees based on a percentage of assets under management will not exceed 0.20% for Helios Quantitative Research services.

Pension Consulting:

We charge an hourly fee, flat fee, or a fee based on the percentage of Plan assets under management for Pension Consulting services. The total estimated fee, as well as the ultimate fee that we charge you, is based on the scope and complexity of our engagement with you. Our hourly fee is \$250. Our

flat fees generally range from \$750 to \$12,000. Flat fees will be charged quarterly for ongoing pension consulting services. Fees based on a percentage of managed Plan assets will not exceed 1.00%.

Clients who are charged at the lower end of the flat fee scale are given basic consulting services which include assisting employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. Clients who are charged at the higher end of the flat fee scale can expect a comprehensive detailed consultation. As the needs of the plan sponsor dictate, areas of advising could include: investment options, plan structure and participant education.

The fee-paying arrangements for pension consulting service will be determined on a case-by-case basis and will be detailed in the signed Pension Consulting Agreement. The client will be invoiced directly for the fees.

Referrals to Third Party Money Managers:

The total annual advisory fee for this service shall not exceed 2.00%. A portion of this fee will be paid to our firm and will be outlined in the third party money manager's advisory agreement to be signed by the client. Clients will be provided with a copy of the chosen third party money manager's Form ADV Part 2, all relevant Brochures, a solicitation disclosure statement detailing the fees to be paid to both firms and the third party money manager's privacy policy. All fees that our firm receives from the third party money managers and the written separate disclosures made to clients regarding these fees comply with applicable state statutes and rules.

The billing procedures for this service vary based on the chosen third party money manager. The total fee to be charged, as well as the billing cycle, will be detailed in the third party money manager's ADV Part 2A and separate advisory agreement to be signed by the client.

Other Types of Fees & Expenses

Clients will incur transaction charges for trades executed in their accounts. These transaction fees are separate from our fees and will be disclosed by the firm that the trades are executed through. Charles Schwab & Co., Inc. ("Schwab") does not charge transaction fees for U.S. listed equities and exchange traded funds. Also, clients will pay the following separately incurred expenses, which we do not receive any part of: charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund's prospectus (i.e., fund management fees and other fund expenses).

Termination & Refunds

For Asset Management clients charged monthly in arrears, either party may terminate the advisory agreement signed with our firm at any time by providing written notice to the other party. Upon notice of termination, pro-rata advisory fees for services rendered to the point of termination will be charged. If advisory fees cannot be deducted, our firm will send an invoice for due advisory fees to the client.

For Asset Management clients charged quarterly in advance, either party may terminate the advisory agreement signed with our firm at any time by providing written notice to the other party. Upon notice of termination, we will proceed to close out your account and process a pro-rata refund of unearned advisory fees.

Either party may terminate the Financial Planning and Consulting Agreement or Pension Consulting Agreement at any time by providing notice to the other party. For purposes of calculating refunds, all work performed by our firm up to the point of termination shall be calculated at hourly fee currently in effect. You will receive a pro-rata refund of unearned fees based on the time and effort expended by our firm and Planner, as well as be provided with any written documentation of the plan or consultation.

Commissionable Securities Sales

We do not sell securities for a commission in our advisory accounts.

Item 6: Performance-Based Fees & Side-By-Side Management

We do not accept performance-based fees.

Item 7: Types of Clients & Account Requirements

We have the following types of clients:

- Individuals and High Net Worth Individuals;
- Trusts, Estates or Charitable Organizations;
- Pension and Profit Sharing Plans;
- Other Investment Advisers; and
- Corporations, Limited Liability Companies and/or Other Business Types.

There are no requirements for opening and maintaining an account with our firm.

Item 8: Methods of Analysis, Investment Strategies & Risk of Loss

Methods of Analysis

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Fundamental Analysis: We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell). Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical & Charting Analysis: We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement. Technical analysis does not consider the underlying financial condition of a

company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Cyclical Analysis: In this type of technical analysis, we measure the movements of a particular stock against the overall market in an attempt to predict the price movement of the security. This presents a risk because the broad economy has been shown to move in cycles – periods of peak performance followed by a downturn, then a trough of low activity. Between the peak and trough of a business or other economic cycle, investments may fall in value to reflect the uncertainty surrounding future returns as compared with the recent past.

Investment Strategies

We use the following strategies in managing client accounts, provided that such strategies are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations. Typically, we employ this strategy when we believe the securities to be currently undervalued, and/or we want exposure to a particular asset class over time, regardless of the current projection for this class.

Long-Term Purchases: When utilizing this strategy, we may purchase securities with the idea of holding them for a relatively long time (typically held for at least a year). A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantages of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell. Typically, we employ this sub-strategy when we believe the securities to be well valued; and/or we want exposure to a particular asset class over time, regardless of the current projection for this class.

Short-Term Purchases: When utilizing this strategy, we may also purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase. The risk in this strategy is that the initial funds invested may be lost if a client is heavily invested in one stock or sector of the market with an incorrect investment or market crash.

Trading: We purchase securities with the idea of selling them very quickly (typically within 30 days or less). We do this in an attempt to take advantage of our predictions of brief price swings. The risk associated with this strategy is that a high volume of trading activity may lead to increased transaction fees, returns are not guaranteed on any transaction and that the market can be volatile.

Short Sales: We borrow shares of a stock for your portfolio from someone who owns the stock on a promise to replace the shares on a future date at a certain price. Those borrowed shares are then sold. On the agreed-upon future date, we buy the same stock and return the shares to the original owner. We engage in short selling based on our determination that the stock will go down in price after we have borrowed the shares. If we are correct and the stock price has gone down since the shares were purchased from the original owner, the client account realizes the profit. The risks associated with this strategy include an unlimited downside as the gain is limited by the fact that the stock can't fall below zero, and the loss is unlimited because a stock's price can keep rising.

Margin Transactions: We will purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to with your available cash, and allows us to purchase stock without selling other holdings. The risk in utilizing borrowed money is that clients may be subject to a margin call, where the addition of cash will be required to liquidate the position.

Option Writing: We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset. The two types of options are calls and puts. A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires. A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires. We will use options to "hedge" a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio. We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price. We use a "spreading strategy", in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

Inherent risks associated with this strategy include time sensitivity and that options are less tangible than other investments. An options contract is for a short period - generally a few months. The buyer of an option could lose his or her entire investment even with a correct prediction about the direction and magnitude of a particular price change if the price change does not occur before the option expires. Options are book entry only investments and do not come with paper certificates of ownership.

Risk of Loss

Investing in securities involves risk of loss that clients should be prepared to bear. While the stock market may increase and your account(s) could enjoy a gain, it is also possible that the stock market may decrease and your account(s) could suffer a loss. It is important that you understand the risks associated with investing in the stock market, are appropriately diversified in your investments, and ask us any questions you may have.

Item 9: Disciplinary Information

There are no legal or disciplinary events that are material to the evaluation of our advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities & Affiliations

Representatives of our firm are insurance agents/brokers. They offer insurance products and receive fees as a result of insurance sales. A conflict of interest exists as these insurance sales create an incentive to recommend products based on the compensation adviser and/or our supervised persons may earn. To mitigate this potential conflict, our firm will act in the client's best interest.

Representatives of our firm are owners of Helios Quantitative Research, an algorithm-based consulting firm that our firm may obtain investment research from. To mitigate any potential conflicts of interest, as a fiduciary, our firm will act in the client's best interest.

Representatives of our firm are owners of Helios Integrated Planning, a collaboration between estate planners and attorneys focused primarily on Financial Advisors. To mitigate any potential conflicts of interest as a fiduciary, our firm will act in the client's best interest.

Item 11: Code of Ethics, Participation or Interest in Client Transactions & Personal Trading

As a fiduciary, it is an investment adviser's responsibility to provide fair and full disclosure of all material facts and to act solely in the best interest of each of our clients at all times. Our fiduciary duty is the underlying principle for our firm's Code of Ethics, which includes procedures for personal securities transaction and insider trading. Our firm requires all representatives to conduct business with the highest level of ethical standards and to comply with all federal and state securities laws at all times. Upon employment with our firm, and at least annually thereafter, all representatives of our firm will acknowledge receipt, understanding and compliance with our firm's Code of Ethics. Our firm and representatives must conduct business in an honest, ethical, and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients. This disclosure is provided to give all clients a summary of our Code of Ethics. If a client or a potential client wishes to review our Code of Ethics in its entirety, a copy will be provided promptly upon request.

Our firm recognizes that the personal investment transactions of our representatives demands the application of a Code of Ethics with high standards and requires that all such transactions be carried out in a way that does not endanger the interest of any client. At the same time, our firm also believes that if investment goals are similar for clients and for our representatives, it is logical, and even desirable, that there be common ownership of some securities.

In order to prevent conflicts of interest, our firm has established procedures for transactions effected by our representatives for their personal accounts¹. In order to monitor compliance with our personal trading policy, our firm has pre-clearance requirements and a quarterly securities transaction reporting system for all of our representatives.

Neither our firm nor a related person recommends, buys or sells for client accounts, securities in which our firm or a related person has a material financial interest without prior disclosure to the client.

Related persons of our firm may buy or sell securities and other investments that are also recommended to clients. In order to minimize this conflict of interest, our related persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics, a copy of which is available upon request.

¹ For purposes of the policy, our associate's personal account generally includes any account (a) in the name of our associate, his/her spouse, his/her minor children or other dependents residing in the same household, (b) for which our associate is a trustee or executor, or (c) which our associate controls, including our client accounts which our associate controls and/or a member of his/her household has a direct or indirect beneficial interest in.

Likewise, related persons of our firm buy or sell securities for themselves at or about the same time they buy or sell the same securities for client accounts. In order to minimize this conflict of interest, our related persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics, a copy of which is available upon request. Further, our related persons will refrain from buying or selling the same securities prior to buying or selling for our clients in the same day unless included in a block trade.

Item 12: Brokerage Practices

Selecting a Brokerage Firm

Our firm does not maintain custody of client assets. Client assets must be maintained by a qualified custodian. Our firm seeks to recommend a custodian who will hold client assets and execute transactions on terms that are overall most advantageous when compared to other available providers and their services. The factors considered, among others, are these:

- Ability to maintain the confidentiality of trading intentions
- Timeliness of execution
- Timeliness and accuracy of trade confirmations
- Liquidity of the securities traded
- Willingness to commit capital
- Ability to place trades in difficult market environments
- Research services provided
- Ability to provide investment ideas
- Execution facilitation services provided
- Record keeping services provided
- Custody services provided
- Frequency and correction of trading errors
- Ability to access a variety of market venues
- Expertise as it relates to specific securities
- Financial condition
- Business reputation

With this in consideration, we recommend that our clients use Charles Schwab & Co., Inc. ("Schwab"), a registered broker-dealer, member SIPC, as the qualified custodian. Our firm custodies our non-qualified annuities with Jefferson National. In addition, our firm recommends Pershing Advisor Solutions, LLC ("Pershing"), AssetMark, Inc. ("AssetMark"), and APEX Clearing Corporation ("APEX"). Schwab, Pershing, AssetMark, and APEX are independent [and unaffiliated] SEC-registered broker-dealers. Schwab, Pershing, AssetMark, and APEX offer services to independent investment advisers which includes custody of securities, trade execution, and clearance and settlement of transactions. Schwab, Pershing, AssetMark, and APEX enable us to obtain many no-load mutual funds without transaction charges and other no-load funds at nominal transaction charges. Schwab, Pershing, AssetMark, and APEX do not charge client accounts separately for custodial services. Client accounts will be charged transaction fees, commissions or other fees on trades that are executed or settle into the client's custodial account. Transaction fees are negotiated with Schwab, Pershing, AssetMark, and APEX and are generally discounted from customary retail commission rates. This benefits clients because the overall fee paid is often lower than would be otherwise.

Schwab, Pershing, AssetMark, and APEX may make certain research and brokerage services available at no additional cost to our firm. Research products and services provided by Schwab, Pershing, AssetMark, and APEX may include: research reports on recommendations or other information about particular companies or industries; economic surveys, data and analyses; financial publications; portfolio evaluation services; financial database software and services; computerized news and pricing services; quotation equipment for use in running software used in investment decision-making; and other products or services that provide lawful and appropriate assistance by Schwab Pershing, AssetMark, or APEX to our firm in the performance of our investment decision-making responsibilities. The aforementioned research and brokerage services qualify for the safe harbor exemption defined in Section 28(e) of the Securities Exchange Act of 1934.

Schwab, Pershing, AssetMark, and APEX do not make client brokerage commissions generated by client transactions available for our firm's use. The aforementioned research and brokerage services are used by our firm to manage accounts for which our firm has investment discretion. Without these arrangements, our firm might be compelled to purchase the same or similar services at our own expense.

As part of our fiduciary duty to our clients, our firm will endeavor at all times to put the interests of our clients first. Clients should be aware, however, that the receipt of economic benefits by our firm or our related persons creates a potential conflict of interest and may indirectly influence our firm's choice of Schwab, Pershing, AssetMark, or APEX as a custodial recommendation. Our firm examined this potential conflict of interest when our firm chose to recommend Schwab, Pershing, AssetMark, and APEX and have determined that the recommendation is in the best interest of our firm's clients and satisfies our fiduciary obligations, including our duty to seek best execution.

Our fee clients may pay a transaction fee or commission to Schwab, Pershing, AssetMark, or APEX that is higher than another qualified broker dealer might charge to effect the same transaction where our firm determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided to the client as a whole. Schwab does not charge transaction fees for U.S. listed equities and exchange traded funds.

In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Although our firm will seek competitive rates, to the benefit of all clients, our firm may not necessarily obtain the lowest possible commission rates for specific client account transactions.

Products and Services Available to Us from Schwab

Schwab Advisor Services™ is Schwab's business serving independent investment advisory firms like ours. They provide us and our clients with access to their institutional brokerage services (trading, custody, reporting, and related services), many of which are not typically available to Schwab retail customers. However, certain retail investors may be able to get institutional brokerage services from Schwab without going through our firm. Schwab also makes available various support services. Some of those services help us manage or administer our clients' accounts, while others help us manage and grow our business. Schwab's support services are generally available at no charge to us. Following is a more detailed description of Schwab's support services:

Services That Benefit Clients

Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit you and your account.

Services That Do Not Directly Benefit Clients

Schwab also makes available to us other products and services that benefit us but do not directly benefit you or your account. These products and services assist us in managing and administering our clients' accounts and operating our firm. They include investment research, both Schwab's own and that of third parties. We use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- Provide access to client account data (such as duplicate trade confirmations and account statements)
- Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- Provide pricing and other market data
- Facilitate payment of our fees from our clients' accounts
- Assist with back-office functions, record keeping, and client reporting

Services that Generally Only Benefit Us

Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events
- Consulting on technology and business needs
- Publications and conferences on practice management and business succession
- Access to employee benefits providers, human capital consultants, and insurance providers
- Marketing consulting and support

Schwab provides some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Schwab also discounts or waives its fees for some of these services or pays all or a part of a third party's fees. Schwab also provides us with other benefits, such as occasional business entertainment of our personnel. If you did not maintain your account with Schwab, we would be required to pay for these services from our own resources.

Our Interest in Schwab's Services

The availability of these services from Schwab benefits us because we do not have to produce or purchase them. We don't have to pay for Schwab's services. These services are not contingent upon us committing any specific amount of business to Schwab in trading commissions or assets in custody. The fact that we receive these benefits from Schwab is an incentive for us to recommend the use of Schwab rather than making such decision based exclusively on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a conflict of interest. We believe, however, that taken in the aggregate, our recommendation of Schwab as

custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab's services and not Schwab's services that benefit only us.

Soft Dollars

Our firm does not receive soft dollars in excess of what is allowed by Section 28(e) of the Securities Exchange Act of 1934. The safe harbor research products and services obtained by our firm will generally be used to service all of our clients but not necessarily all at any one particular time.

Client Brokerage Commissions

Schwab, Pershing, AssetMark, and APEX do not make client brokerage commissions generated by client transactions available for our firm's use.

Client Transactions in Return for Soft Dollars

Our firm does not direct client transactions to a particular broker-dealer in return for soft dollar benefits.

Brokerage for Client Referrals

Our firm does not receive brokerage for client referrals.

Directed Brokerage

Neither we nor any of our firm's related persons have discretionary authority in making the determination of the brokers with whom orders for the purchase or sale of securities are placed for execution, and the commission rates at which such securities transactions are effected. We routinely recommend that a client directs us to execute through a specified broker-dealer. Our firm recommends the use of Schwab, Pershing, AssetMark, or APEX. Each client will be required to establish their account(s) with Schwab, Pershing, AssetMark, or APEX if they have not already done so. Please note that not all advisers have this requirement.

Client Directed Brokerage

Clients who direct brokerage outside our recommendation may be unable to achieve the most favorable execution of client transactions. Client directed brokerage may cost clients more money. For example, in a directed brokerage account, you may pay higher brokerage commissions because we may not be able to aggregate orders to reduce transaction costs, or you may receive less favorable prices.

Special Considerations for ERISA Clients

A retirement or ERISA plan client may direct all or part of portfolio transactions for its account through a specific broker or dealer in order to obtain goods or services on behalf of the plan. Such direction is permitted provided that the goods and services provided are reasonable expenses of the plan incurred in the ordinary course of its business for which it otherwise would be obligated and empowered to pay. ERISA prohibits directed brokerage arrangements when the goods or services purchased are not for the exclusive benefit of the plan. Consequently, we will request that plan

sponsors who direct plan brokerage provide us with a letter documenting that this arrangement will be for the exclusive benefit of the plan.

Aggregation of Purchase or Sale

We perform investment management services for various clients. There are occasions on which portfolio transactions may be executed as part of concurrent authorizations to purchase or sell the same security for numerous accounts served by our firm, which involve accounts with similar investment objectives. Although such concurrent authorizations potentially could be either advantageous or disadvantageous to any one or more particular accounts, they are affected only when we believe that to do so will be in the best interest of the effected accounts. When such concurrent authorizations occur, the objective is to allocate the executions in a manner which is deemed equitable to the accounts involved. In any given situation, we attempt to allocate trade executions in the most equitable manner possible, taking into consideration client objectives, current asset allocation and availability of funds using price averaging, proration and consistently non-arbitrary methods of allocation.

Item 13: Review of Accounts or Financial Plans

We review accounts on at least a quarterly basis for our clients subscribing to our Asset Management service. The nature of these reviews is to learn whether clients' accounts are in line with their investment objectives, appropriately positioned based on market conditions, and investment policies, if applicable. Our management personnel or financial advisors will conduct reviews. We do not provide written reports to clients, unless asked to do so. Verbal reports to clients take place on at least an annual basis when we contact clients who subscribe to our Asset Management service.

Financial Planning clients do not receive reviews of their written plans unless they take action to schedule a financial consultation with us. We do not provide ongoing services to financial planning clients, but are willing to meet with such clients upon their request to discuss updates to their plans, changes in their circumstances, etc.

Pension Consulting clients receive reviews of their pension plans for the duration of the pension consulting service. We also provide ongoing services to Pension Consulting clients where we meet with such clients upon their request to discuss updates to their plans, changes in their circumstances, etc.

We may review client accounts more frequently than described above. Among the factors which may trigger an off-cycle review are major market or economic events, the client's life events, requests by the client, etc.

Item 14: Client Referrals & Other Compensation

Charles Schwab & Co, Inc.

We receive an economic benefit from Schwab in the form of the support products and services it makes available to us and other independent investment advisors whose clients maintain their

accounts at Schwab. We benefit from the products and services provided because the cost of these services would otherwise be borne directly by us, and this creates a conflict. You should consider these conflicts of interest when selecting a custodian. These products and services, how they benefit us, and the related conflicts of interest are described above in Item 12: Brokerage Practices.

Pershing Advisor Solutions, LLC, AssetMark, Inc., & APEX Clearing Corporation

Except for the arrangements outlined in Item 12, our firm has no additional arrangements to disclose.

Other Compensation

Third parties may occasionally reimburse our firm's travel expenses in order for us to attend educational events. These reimbursements do not reflect a commission or other compensation for the actual sale of any associated securities. They are payments received to offset a portion or all of our direct costs associated with our firm's due diligence and performance review of the company's products. The receipt of any reimbursement does not impact the fee paid by the client to us or any investment decisions on behalf of individual clients.

Referral Fees

In accordance with Rule 206 (4)-1 of the Investment Advisers Act of 1940, our firm provides cash or non-cash compensation directly or indirectly to unaffiliated persons for testimonials or endorsements (which include client referrals). Such compensation arrangements will not result in higher costs to the referred client. In this regard, our firm maintains a written agreement with each unaffiliated person that is compensated for testimonials or endorsements in an aggregate amount of \$1,000 or more (or the equivalent value in non-cash compensation) over a trailing 12-month period in compliance with Rule 206 (4)-1 of the Investment Advisers Act of 1940 and applicable state and federal laws. The following information will be disclosed clearly and prominently to referred prospective clients at the time of each testimonial or endorsement:

- Whether or not the unaffiliated person is a current client of our firm,
- A description of the cash or non-cash compensation provided directly or indirectly by our firm to the unaffiliated person in exchange for the referral, if applicable, and
- A brief statement of any material conflicts of interest on the part of the unaffiliated person giving the referral resulting from our firm's relationship with such unaffiliated person.

In cases where state law requires licensure of solicitors, our firm ensures that no solicitation fees are paid unless the solicitor is registered as an investment adviser representative of our firm. If our firm is paying solicitation fees to another registered investment adviser, the licensure of individuals is the other firm's responsibility.

Our firm indirectly compensates Investment Adviser Representatives of other investment advisers for referrals to Helios Quantitative Research via paid travel. This arrangement will not result in higher costs to the referred client. All clients referred by these individuals will be given full written disclosure describing this arrangement.

Item 15: Custody

Our firm does not have custody of client funds or securities. All of our clients receive account statements directly from their qualified custodians at least quarterly upon opening of an account. If our firm decides to also send account statements to clients, such notice and account statements include a legend that recommends that the client compare the account statements received from the qualified custodian with those received from our firm. Clients are encouraged to raise any questions with us about the custody, safety or security of their assets and our custodial recommendations.

On February 21, 2017, the SEC issued a no-action letter (“Letter”) with respect to Rule 206(4)-2 (“Custody Rule”) under the Investment Advisers Act of 1940 (“Advisers Act”). The letter provided guidance on the Custody Rule as well as clarified that an adviser who has the power to disburse client funds to a third party under a standing letter of instruction (“SLOA”) is deemed to have custody. As such, our firm has adopted the following safeguards in conjunction with our custodian:

- The client provides an instruction to the qualified custodian, in writing, that includes the client’s signature, the third party’s name, and either the third party’s address or the third party’s account number at a custodian to which the transfer should be directed.
- The client authorizes the investment adviser, in writing, either on the qualified custodian’s form or separately, to direct transfers to the third party either on a specified schedule or from time to time.
- The client’s qualified custodian performs appropriate verification of the instruction, such as a signature review or other method to verify the client’s authorization, and provides a transfer of funds notice to the client promptly after each transfer.
- The client has the ability to terminate or change the instruction to the client’s qualified custodian.
- The investment adviser has no authority or ability to designate or change the identity of the third party, the address, or any other information about the third party contained in the client’s instruction.
- The investment adviser maintains records showing that the third party is not a related party of the investment adviser or located at the same address as the investment adviser.
- The client’s qualified custodian sends the client, in writing, an initial notice confirming the instruction and an annual notice reconfirming the instruction.

Item 16: Investment Discretion

Clients have the option of providing our firm with investment discretion on their behalf, pursuant to an executed investment advisory client agreement. By granting investment discretion, we are authorized to execute securities transactions, which securities are bought and sold, the total amount to be bought and sold, and the costs at which the transactions will be effected. Limitations may be imposed by the client in the form of specific constraints on any of these areas of discretion with our firm’s written acknowledgement.

Item 17: Voting Client Securities

We do not and will not accept the proxy authority to vote client securities. Clients will receive proxies or other solicitations directly from their custodian or a transfer agent. In the event that proxies are sent to our firm, we will forward them on to you and ask the party who sent them to mail them directly to you in the future. Clients may call, write or email us to discuss questions they may have about particular proxy votes or other solicitations.

Item 18: Financial Information

We have never been the subject of a bankruptcy proceeding. We are not required to provide financial information in this Brochure because:

- We do not require the prepayment of more than \$1,200 in fees and six or more months in advance.
- We do not take custody of client funds or securities.
- We do not have a financial condition or commitment that impairs our ability to meet contractual and fiduciary obligations to clients.
